The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with the c	orrespondence address					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The Amendments filed on April 27, 2006 and July 19, 2006 have been acknowledged.

## Withdrawal of Allowability

The indicated allowability of claims 13, 15, 17, 31-37, and 39-54 is withdrawn in view of the new grounds of rejection as follow.

### **Drawings**

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the means for processing, means for performing a cross-calibration, and means for recalibrating a deviating system (claim 66) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet,

Application/Control Number: 10/786,197 Page 3

Art Unit: 2863

and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next

# Claim Objections

Office action. The objection to the drawings will not be held in abeyance.

Claims 66, 85, and 93 are objected to because of the following informalities:

- claim 66, are the means for processing, means for performing a cross-calibration, and

means for recalibrating a deviating system related to the processor (126) (shown in Fig.

2)?

- claims 85 and 93, "RTD" is not defined.

Appropriate correction is required.

### Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 13, 15, 17, 31-37, and 39-54 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims do not produce any tangible results. The practical application of the claimed invention cannot be realized until the information determined is conveyed to the user. For the result to be tangible, the analyzed or calculated results would need to outputted to a user or displayed to a user or stored for later use by a user. Hence, the claims are treated as non-statutory functional descriptive material (see MPEP 2106 and <a href="http://www.uspto.gov/web/offices/com/sol/og/2005/week47/patgupa.htm">http://www.uspto.gov/web/offices/com/sol/og/2005/week47/patgupa.htm</a>).

### Allowable Subject Matter

Claims 66, 85-88, and 93-101 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.

Claims 1-12 are allowed.

# Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 2863

#### Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Nghiem whose telephone number is (571) 272-2277. The examiner can normally be reached on M-H.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Barlow can be reached on (571) 272-2269. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
